

**An Anarchist
Media Collective**

WHAT IS SABOT MEDIA?

We are an Anarchist Media Collective looking to provide an outlet for Radical Analysis, Organization, & Education throughout various media projects.

The Harbor Rat Report is a grassroots journalism project updating the Grays Harbor community on stories around radical rural resistance, political direct actions, community organizing efforts, housing advocacy projects, and much more. We see a distinct lack of credible investigative reporting on topics of vital importance to our community. We will investigate and write the stories that aren't being told in this capitalist media landscape.

THE COMMUNIQUE

A RURAL REBEL RUNDOWN

The Communique is a seasonal newsletter that combines stories of regional rural organizing efforts & political resistance, along with local history, art, and poetry to update our comrades in the wider culture of resistance. We feel a lack of representation in what has become a one way relationship between rural and urban radicals. By connecting our stories to the struggle for liberation across the globe, we aim to foster a culture of learning and bridge the divide between the two in order to strengthen the bonds of solidarity between all our communities.

we are the inky ones. flashing eyes in the dead of night. our fangs are sharp, our wit sharper. You can join us, we print posters, stickers, & zines. What's a zine? A zine is a small booklet on a topic important to you. It can be anything. When sabot media makes content we sneak in the night to seize it and make it our own. We chop it up, rearrange it to our liking, and then hit Ctrl-P. We toss this garbage all over town in the hopes someone will read it. Join us in this revelry by printing this stuff yourself. Give it to a friend, leave it at a bus stop, wheat paste it behind a dumpster, fill your personal library, sell it to raise money, wad it in the neck of a glass bottle and throw it to sea, shred it for a pinata of your local politician, use it as tinder for a fire somewhere fun, tie it to a rock and throw it through a police station window, feed it to your litter, become ungovernable.

In Molotov Now! We analyze and discuss articles shared by the Harbor Rat Report and other stories of resistance across the globe with a focus on rural organizing. The Unique Dynamics of community organizing in small towns, and the often reactionary rural politics we face leads to special tactical considerations that we feel urban comrades need to learn from. In the spirit of building Solidarity between The Rural & The Urban and inspiring Direct Action in the face of capitalist oppression We seek to discuss the many and various tactics and actions taken by rural organizers and connect them to the actions of urban organizers.

Why Should Social Media Companies Profit From Our Labor!?

Its time Seize the Memes of Productions!

We are your friendly neighborhood anarchist video crew that shitposts on facebook al the time, but our aspirations have grown so we have partnered with Sabot Media to spread our shit posts to new platforms such as Youtube, Tik Tok, Instagram, Twitter, & Mastadon

Through these platforms we intend to share everything from long form videos to short digestible nuggets of content, right down to the dirty core of an idea - a meme. we go to the considerable effort of producing bushels of long form video documentaries in order to thresh out the out finest grains of content for easy digestion, letting it ferment and then finally distilling these heady ideas into our memes for mainline instant satisfaction.
